

**INTORQ**

setting the standard

The INTORQ brand stands for reliable brake solutions with the highest product standards.

Success is no accident – A career with INTORQ

INTORQ is a young owner-managed company, and it produces 800,000 electromagnetic brakes and clutches annually. 230 employees currently achieve sales revenue totalling around 47m euros. As the market leaders in Europe, we define the standard in the field of spring-applied brakes. INTORQ has expanded its international presence by establishing sites in Shanghai, Atlanta and Pune.

To further extend our position as market leaders in Europe and to successfully continue our international expansion plans, we are looking for a

Sales Engineer, Drive Technology (m/f)

at our headquarters in Aerzen.

Your duties:

- Technical consultation and supervision for key customers and project customers
- Product- and industry-related market research
- Independent acquisition of new sales potential
- Development of foreign markets in cooperation with our international sales partners

Your profile:

- Successful completion of a university-level degree in a technical field (e.g. mechatronics, mechanical engineering, industrial engineering)
- Knowledge of SAP R3 would be beneficial
- Some years of experience in sales
- Good knowledge of German and English, written and spoken
- Ability to assert yourself, make decisions, communicate, work in a team, and use your own initiative

The position is unlimited and immediately available. Please tell us your salary expectations.
